#### 76.5 COMMUNICATION FROM THE CLERK—MESSAGE FROM THE PRESIDENT

The SPEAKER laid before the House a communication, which was read as follows:

WASHINGTON, DC,  
June 23, 1992.

Hon. THOMAS S. FOLEY,  
*The Speaker, House of Representatives, Washington, DC.*

DEAR MR. SPEAKER: Pursuant to the permission granted in clause 5 of rule III of the Rules of the U.S. House of Representatives, I have the honor to transmit a sealed envelope received from the White House at 6:55 p.m. on Tuesday, June 23, 1992, and said to contain H.R. 2507, the "National Institutes of Health Revitalization Amendments of 1992," and a veto message thereon.

With great respect, I am

Sincerely yours,

DONNALD K. ANDERSON,  
*Clerk, House of Representatives.*

#### 76.6 VETO OF H.R. 2507

The Clerk then read the veto message from the President, as follows:

*To the House of Representatives:*

I am returning herewith without my approval H.R. 2507, the "National Insti-

tutes of Health Revitalization Amendments of 1992," which would extend and amend biomedical research authorities of the National Institutes of Health (NIH).

Before discussing the flaws of H.R. 2507, I must clarify two misperceptions. First, H.R. 2507 is not necessary to assure that Federal spending continue for biomedical research, or for research related to any disease, disorder, or condition. Second, H.R. 2507 is not necessary to increase support for research targeted at women's health needs. Great progress is being made in the area of women's health under the valued leadership of the first female director of the NIH.

H.R. 2507 is unacceptable to me on almost every ground: ethical, fiscal, administrative, philosophical, and legal. I repeatedly warned the Congress of this at each stage of the legislative process. The bill's provisions permitting the use of tissue from induced abortions for federally funded transplantation research involving human subjects are inconsistent with our Nation's deeply held beliefs. Moreover, it is clear that this legislation would be counterproductive to the attainment of our Nation's health research objectives.

H.R. 2507 is objectionable because it would lift the current moratorium on the use of Federal funds for fetal tissue transplantation research where the tissue is obtained from induced abortions. Let it be clear: This is not a moratorium on research. It is only a moratorium on the use of one source of tissue for that research. I believe this moratorium is important in order to prevent taxpayer funds from being used for research that many Americans find morally repugnant and because of its potential for promoting and legitimizing abortion.

My Administration is strongly committed to pursuing research to find cures and treatments for such disorders as Parkinson's disease, diabetes, and Alzheimer's disease that have been held out as areas where fetal tissue research might be pursued. Fetal tissue transplantation research relating to these disorders can proceed without relying on tissue from induced abortions. Medical experts at the Department of Health and Human Services have assured me that ectopic pregnancies and spontaneous abortions provide sufficient and suitable tissue to meet anticipated research needs. Therefore, on May 19, 1992, I issued an Executive order establishing a fetal tissue bank that will collect tissue from these sources so as to meet the needs of the research community. The bank will provide tissue directly to scientists for their research. This approval truly represents the pro-research and ethical alternative that will allow this research to go forward without relying on a source of tissue that many find to be morally objectionable.

H.R. 2507 also contains fiscally irresponsible authorization levels. The total cost of the provisions in this legislation could exceed the FY 1993 Budg-
